Schreiben ist Gold

Mein persönliches „Gold" ist,
wenn ich mich im Zug so
hinsetze, dass mir die Sonne
direkt ins Gesicht scheint.

Liebe Lisa,
Ich habe kein
Zeit dir zu schreiben!
Es gibt sehr viele Wellen.

Falls mein Gruß veröffentlicht wird, bitte unter folgend...
Online-Namen:

Every thought is worth writing down.

Writing unites

Each thought is worth writing down - our principle is apparently much appreciated. We often receive letters with short notes, witty sayings, small sketches and much more from all over the world. Sometimes these are letters within the framework of our product campaigns, sometimes for no particular reason.

These are three reasons that make us happy. Firstly, because we can see that our communication has been noticed. Secondly, because it is clear that our pens are used often. And thirdly, because we realize that we are not just seen as a manufacturer of writing instruments but also well-established as a brand in the minds of the people.

We stand for quality, durability, practicality and proximity to users. The last point especially has become increasingly apparent. Our Web site is attractive and informative; it creates a sense of community among Schneider users. This is reinforced by our presence on Facebook: Schneider is a frequent companion in everyday life.

All this also benefits you. With our products, you increase the attractiveness of your product range and strike the right note in your business. Your customers will appreciate this. We will be happy to assist you with material for the product presentation, such as our modular displays. Just ask us.

We are pleased to show you our current products, and we are happy to see how more and more people embrace the Schneider brand - not least because of your commitment. Thank you.

Christian Schneider

We Care

EMAS

VERIFIED
ENVIRONMENTAL
MANAGEMENT
DE-169-000015

We Care

Yes, we really do. We do even more than "just" use bioplastics.

Our aim is to continuously improve all direct and indirect environmental performance, including the protection of resources, the efficient use of energy and the reduction of waste and emissions. Therefore we have created a six-point plan, which applies to all of our products:

Maximum recycling of product components

Electricity from 100 % hydro-energy and renewable energy resources

No PVCs, only high-purity PP and PET

Development and production in Germany

Reduction of emissions and waste

Long-lasting, sustainable products

Comprehensive and lasting environmental protection is given high priority and has been for some time. Since 1998 Schneider has been the first company in the writing instrument industry certified and revalidated in accordance with the strictest environmental management system worldwide, the EU ecology audit EMAS. An audit takes place every three years by an independent and accredited environmental auditor.

Schneider Slider Rave XB

Schneider Slider 755 XB

Ballpoint pens

Schneider ballpoint pens are designed for everyday use. Functional design, high quality and a long shelf life are especially important to us. Some examples: Plug+Play, the universal fit for different refill formats makes refilling easy. A rotation mechanism rotates the refill by 45 degrees with each click, so that the tip is being used evenly on all sides. Wear-resistant stainless steel tips guarantee that the big ink reservoir can be used up completely without any smear marks. Schneider ballpoint pens have thus become a leading brand worldwide.

Slider is the new innovative ballpoint pen with Viscoglide®-technology for exceptionally smooth and easy writing. Other smooth writing instruments cannot meet the shelf life and easy handling of the Slider ballpoint pen. The writing dries quickly - even on smooth paper – and is wipe-proof even when highlighting it later on.

Slider Rave

· Ballpoint pen with Viscoglide® technology
· For easy, gliding writing
· Replaceable large Schneider refill Slider 755 XB with stain-
  less steel tip
· Waterproof according to ink standard ISO 12757-2 (except
  for red)
· Can be replaced with any of the other refills from the
  "Plug+Play" series
· The writing dries quickly and is smudge proof when high-
  lighting it later on
· Ergonomic shape and rubberised surface
· With stable metal clip

Fountain pens and cartridge rollerballs

For any student who writes a lot, Schneider writing instruments offer pioneering ergonomic qualities for long and effortless writing. Fountain pens promote the development of good writing for beginners and experienced writers develop their personal writing style. Cartridge rollers are a complement to fountain pens and a good choice for prolific writers in school and at the university.

Breeze is a new ergonomic cartridge roller for casual writing. Design, ergonomics and writing properties appeal to pupils of all ages, students and young adults. Breeze has a soft feel and writes extremely effortless. Breeze writes using the newly developed roller cartridge 852. This sets new standards in terms of its smooth writing and exceeds all its predecessors. An ink regulator ensures constant ink flow from start to finish. The new ink formula is even faster drying and smudge proof when highlighting.

Base Senso New

· Cartridge roller with warning lamp at the end of the pen
· Indicates when there is too much writing pressure applied
· Ideal for beginners and people with motoric problems
· Ergonomic grip piece
· With replaceable roller cartridge 852
· Ink colour: royal blue, erasable
· Large finger areas avoid pressure points
· Equally suitable for right and left-handers

Rollerballs
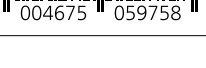

Liquid Ink - something familiar to each one of us since we first began to write. Different ball points and ink formulas are called for the intended usage and the line width, but also for writing comfort. The highlight is the patented hybrid tip, with an elastically mounted plastic ball bed coated and stabilised with a stainless steel tube.

The name Xtra stands for rollerballs with innovative liquid ink technology. The liquid ink is stored in the reservoir. This allows for a higher filling quantity, and nothing remains in the fibres. The regulator system compensates for temperature and air pressure fluctuations and avoids ink smearing. At the same time it guarantees an even ink flow from beginning to end.

Xtra Document

· Rollerball with innovative Liquid-Ink technology
· Waterproof according to ISO 14145-2
· Consistent ink flow from start to finish
· Conical tip made of wear-resistant stainless steel
· Large ink reservoir with level indicator
· Cap-off ink does not run dry even if the cap is removed for
  2-3 days
· Ergonomic, rubberised grip zone
· High-quality metal clip

Fineliners

Due to continuous further development, Schneider has enhanced the proven technique. Ink, reservoir and tip are ideally tailored physically to one another to produce an even line. The fine tips are stabilised with a stainless steel tube that helps when working with a ruler and template. The cap-off ink does not run dry, even if the cap of the writing instrument is removed for 2 or 3 days.

The Xpress is the new premium fineliner. Its strongly expressive form already promises a great deal. The easy flow of ink and the completely rubberised barrel ensure comfortable writing enjoyment. The waterproof ink according to ISO ink standard 14145-2 is water-based and guarantees permanent notes.

Xpress

· Premium fineliner for expressive and striking writing
· Line width about 0.8 mm
· Waterproof ink according to ISO 14145-2
· Ergonomic shape and rubberised surface
· Metal-encased writing tip
· Suitable for use with rulers and templates
· Cap-off ink does not run dry even if the cap is removed for
  2-3 days
· Wonderfully smooth and gliding writing
· Cap with high-quality metal clip

Schneider Write it
Markers

Schneider offers solutions for all kinds of applications: highlighters, permanent markers, combination markers for whiteboards and flip-charts, universal permanent and non-permanent markers, paint markers, chalk markers and more. All of them in different colors and line widths. The best quality for the application, safety of the inks used and the protection of resources are prime objectives of development. There are easy re-fill systems available for almost all markers.

Major improvements were achieved with the combined markers for whiteboards and flipcharts. More ink increases the output and creates more visibility. Yet the combined marker works without limitations - writing can be erased from whiteboards without residue and on flipcharts the ink does not seep through the pages under-neath. The new highlighter Job combines high performance with beauty. In 2013 its contemporary clear and minimalist design was awarded the prestigious iF and reddot design awards.

Job

· Smart highlighter for brilliant results
· Chisel tip for line widths 1 + 5 mm
· Universal ink for standard, copy and fax paper
· Intensive colours, light-resistant ink
· Refillable with Refill station Maxx 660
· Barrel parts made from anti-evaporation PP for long-term
  shelf-life
· Cap with practical clip
· Awarded the iF and reddot design award

This overview provides a rough collection of properties and applications of our markers. In individual cases we cannot guarantee the accuracy of promised features, since many of the technical parameters are beyond our control. For special applications that do not meet the standard according to usage (eg office, school, home, hobby), please ask for the most appropriate solution. In principle, for a good grip on (smooth) surfaces, a clean dry surface is necessary.

● **Suitable**   ◑ **Suitable to only a limited extent**

Graffix

· Mechanical pencil with cylindrical refill tube
· Line widths 0.3, 0.5 and 0.7 mm with ISO colour code
· Cylindrical refill tube is retractable
· Extra large eraser under the push-button
· With rubberised grip zone
· Metal clip and tip

Attractiveness for your salesroom

Because the visual sense plays a role in purchasing decisions, you want to present your products to your customers in a clear and visually appealing way. We are happy to support you with well designed product packaging and a number of elements for your shelves, sales areas and shop windows. For example:

- Displays in different sizes
- Shop-in-shop system (see illustration)
- Counter display
- Decoration material

Use the promotional effect of our point-of-sale materials, designed by a leading German design company. Some great highlights for your rooms.

Signs and symbols

Cap off
Can be kept open for 2 to 3 days without drying up.

For Documents
The writing is permanent according to ISO part 2 "documentary use".

Refillable
The pens can be refilled with refills, cartridges or reservoirs.

Refillable with Plug+Play
Ballpoint pens and refills with this symbol are compatible to each other.

Water and light resistant
The writing doesn't dissolve in water and remains visible after UV radiation.

Biosafe
Bio-plastic barrel made of naturally renewable and biodegradable materials.
